SOLUTION

เทคโนโลยีผลิตไม้คุณภาพ ที่เรียกว่า ไมสเตอร์ เทคโนโลยี

Main Features

Long-lasting attractiveness

We provide a wide lineup of floors with high resistance to scratches and heat for maintaining their attractiveness for a long time even when subjected to pulling of chairs and dropping of objects and other harsh conditions in daily life.

Resistant to dent

Resistant to indentation from casters

Resistant to scratches from chair pulling

Resistant to scratches from pet claws

Easy to clean

Our flooring is resistant to food scraps and other stains that occur in daily life and allows easy cleaning.

Maintains attractiveness without use of wax.

Resistant to food scraps and other stains.

High performance for specific applications

Flooring used for restrooms, toilets, 2nd and 3rd floor rooms, and other locations have specific performance requirements.

Can be used as the finishing material for floor heaters.

Resistant to marks from wheelchairs.

Ideal for indoor environments

Because of the wide indoor area occupied by floors, their impact on the air environment cannot be ignored. Our flooring reduces dust mites, pollen, and other allergens.

Can reduce the virus that drop onto the flooring.

SPECIAL FEATURE ONLY @ Panasonic

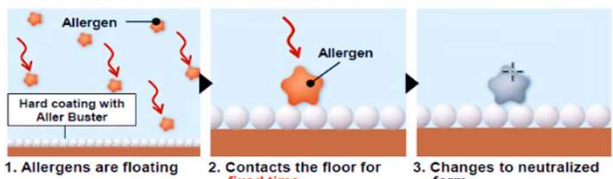

ANTI-ALLERGIC

■ You Should Select Floors with these marks. (Particular product only)

■ Mechanism for reducing allergens

(* Allergens: Pet dander, cedar pollen, dust mites)

* This is not a product for relieving or treating allergy conditions.
